# HOW TO USE THIS BOOK

1. **One card = one image.** Each card gives the file to replace, the exact pixel size, the aspect ratio, where the image appears on the site, and a ready-to-paste prompt.
2. **Generate big, export exact.** Generate at 2× (or the largest your tool allows) in the stated aspect ratio, then crop and resize to the exact size listed.
3. **Export as WebP**, sRGB, quality 80–85, ideally under 350 KB. Save with the **exact file name and folder** shown, so the site picks it up with no code changes.
4. **Paste the negative prompt** (page 3) into your tool's "negative prompt" or "avoid" field for every image. If your tool has none, add "Avoid: …" at the end of the prompt.
5. **Keep the same model.** Pick one generated face for Model A and one for Model B and reuse them (character reference, face reference or a seed) for every image they appear in, so the shop looks like one shoot.
6. **Check every image** for modesty (hair fully covered, loose fit, long sleeves, ankle length), correct hands and fingers, and no stray text or logos before uploading.

> **Important:** the file names are still the original menswear names (for example `kandura-thobes.webp`) so the new pictures drop straight into the site. The category and product *names* shown on the site are still menswear and must be renamed in `lib/data/categories.json` and `lib/data/products.json`. The new women's names used in this book are listed on pages 4–6, ready to use for that.

## RULES FOR EVERY IMAGE

- **Modesty first:** long sleeves to the wrist, ankle-length hems, loose relaxed fit, high necklines. In every photo of a woman or girl, the hair is fully covered by a shayla or hijab.
- **Models:** Gulf and Arab women aged about 22–40. Natural, polished makeup, short nude manicure, calm and confident expressions. Girls about 6–10 for the girls' range. No men or boys anywhere.
- **Sets:** the warm-taupe plaster studio for products; real Dubai places for campaign images (desert dunes, Al Fahidi heritage lanes, courtyards with brass lanterns, modern interiors with skyline views, boutique interiors).
- **Light:** soft, warm, natural. Golden hour outdoors, window light indoors. No hard flash or cold blue tones.
- **Personal and underlayer items** (inner dresses, sleepwear, trousers, leggings) are shown on an invisible "ghost" mannequin, never worn by a model.
- **No text, logos or labels** in any photo. Perfume bottles, bags and boxes stay unbranded.

Low warm sun from the right, a soft peach and amber sky with light clouds, rippled sand in the foreground. She is placed on the left third of the frame, facing slightly right, calm and confident.
